

# SATELLITE INTERNET SERVICE REBATE

Up to a **\$1,000** rebate on select satellite internet service costs.

**Build**   
NOVA SCOTIA

## Interested in the Satellite Internet Service Rebate Program?

- The program accepts applications from residents and business owners in a high-speed internet project area currently underway and not yet complete. This will provide an interim solution for many Nova Scotians.

- The rebate remains available to the approximate 3,700 homes and businesses for which no feasible wired or wireless internet solution is available.

- The rebate will cover the one-time costs for eligible homes and businesses to set-up satellite internet, including hardware, taxes, shipping, and installation, up to a maximum of **\$1,000**.

**Check  
Eligibility**

*\* The rebate continues into 2024*

[Check Eligibility Here](https://internet.buildns.ca/satellite) 

(Or visit <https://internet.buildns.ca/satellite>)

- If eligible and interested in moving ahead, you will need to purchase the hardware from a qualified satellite internet provider that meets or exceeds CRTC speeds of 50 Mbps download and 10 Mbps upload.
- Starlink has indicated that they can meet or exceed these minimum speeds. Other satellite providers may qualify if they meet that criteria.
- You can then apply for the rebate via the online application here. There is also a print/mail-in application available. All receipts must be included at time of application.
- Once your claim is reviewed and approved, a cheque will be mailed to you within approximately 8-10 weeks. If we have questions about your application upon review, we will reach out.
- If you are in a project area for wired or fixed wireless as part of the Internet for Nova Scotia Initiative, you can switch from satellite as access is available.
- If you are not showing as eligible for the rebate and have questions, please contact us.
